DETAILED ACTION

Applicant's amendment dated 07/05/2006 has been received and entered. By the amendment, claims 1-5 are currently pending in the application.

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-5 are rejected under 35 U.S.C 102(b) as being anticipated by Yeh, US Patent Application Publication No. 2002/0101550.

The above claims are anticipated by Yeh's figure 3 and accompanying text which disclose a backlight unit for a liquid crystal display (LCD) comprising:

- . a linear light source (300);
- . a light guide plate (110) including an end side (side next to the light source) and a broad side (emitting light side);
- . a conductive light amount reducing member (part of 210 combined with 230) having L-shaped at a joint portion of the end side and the broad side of the light guide plate.

Response to Arguments

3. Applicant's arguments filed 07/05/2006 have been fully considered but they are not persuasive.

Applicant's only argument, re claims 1 and 5, is that Yeh does not disclose or suggest a light amount reducing member that reduces the amount of light transmitted therethrough from

Art Unit: 2871

the light source since the rampart would reflect light and not transmit light (amendment, page 7).

The Examiner is not convinced by this argument since the same is true of the Yeh's light amount reducing member (part of 210 combined with 230). In particular, it might be true the ramparts (230) having a function of reflection; however, such ramparts do have a function of reducing the amount of light transmitted therethrough (i.e., light from light source would not be transmitted as a whole through the ramparts due to reflection, so as the amount of light would be reduced).

Accordingly, the limitation of claims 1 and 5 met.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
